

VERO-S NSP

Powerful pallet change module with comprehensive monitoring options

Superior Clamping and Gripping

VERO-S NSP

Advantages – Your benefits

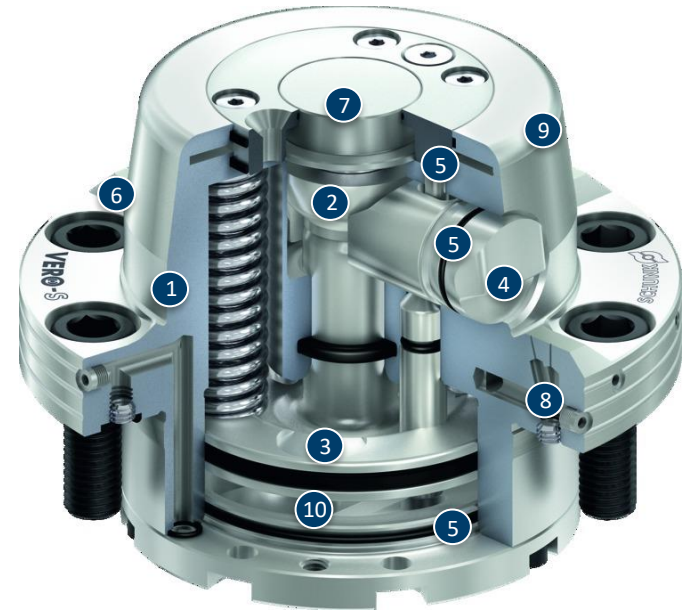

- High-pull-down forces
- Integrated lifting function
- Integrated monitoring
- Integrated cleaning function
- Stepped flat surfaces
- Positioning via short taper
- Patented dual stroke system for highest pull-down forces
- Turbo integrated by default
- Extremely compact design
- Form-fit, self-retained locking
- Hydraulic system

VERO-S NSP

Functional diagram

- ① High-precision short taper centering
- ② Patented dual stroke system
- ③ Turbo function
- ④ Large surfaces
- ⑤ Completely sealed system
- ⑥ Stepped flat surfaces
- ⑦ Lifting function when opening the modules
- ⑧ Compact monitoring
- ⑨ Entry radii on the module
- ⑩ Hydraulic system
